

JAHODNÍK

NEBK& POD MALLÝCH K

A hand-drawn graph on green grid paper. A downward-sloping curve is drawn, representing an isoquant or isonec. The word "isonec" is written diagonally above the curve.

The image consists of a solid green background with a very faint, light green diagonal grid pattern. The grid lines are thin and intersect at approximately a 45-degree angle across the entire frame.

KAMEŇOLOM

**CHKO - Malá
Karpaty**

A large triangle is divided into six smaller triangles by a vertical line from the top vertex to the base, and two diagonal lines from the top vertex to the midpoints of the left and right sides. The triangle on the left of the vertical line is shaded with green diagonal lines. The other five triangles are outlined in red.

A diagram consisting of a red line sloping downwards from left to right, with six small red downward-pointing triangle markers placed along its length. The background is filled with a light green grid pattern.

The diagram consists of two distinct regions. The upper region is shaded blue and is bounded above by a straight line and below by a concave-down curve. The lower region is shaded red and is bounded above by a straight line and below by a concave-up curve. Both regions are set against a background of green diagonal grid lines.

The image consists of two main vertical sections. The left section is filled with a dense green grid pattern, oriented diagonally from the top-left towards the bottom-right. The right section is a solid, vertical dark blue rectangle. A thin white vertical line is positioned to the right of the blue bar, creating a narrow white margin. The overall composition is minimalist and modern.

The image is a detailed geological map of the Malé Karpaty region. It features several distinct geological zones outlined by orange lines and filled with various patterns: a purple zone with diagonal lines, a red zone with horizontal lines, and an orange zone with vertical lines. A blue line, labeled '12' at two points, runs through the purple and red zones. A grey line, labeled '6' at one point, runs through the red and orange zones. The map includes labels for settlements like 'k.ú. H. Orešany' and 'Majdan', and a road labeled 'A1+D'. A large green area on the right is labeled 'Vojtikov vršok'. The map also shows a network of smaller roads and paths. In the bottom right corner, there is a small inset map of the Czech Republic with the label 'Czechia'.
